

Lookup

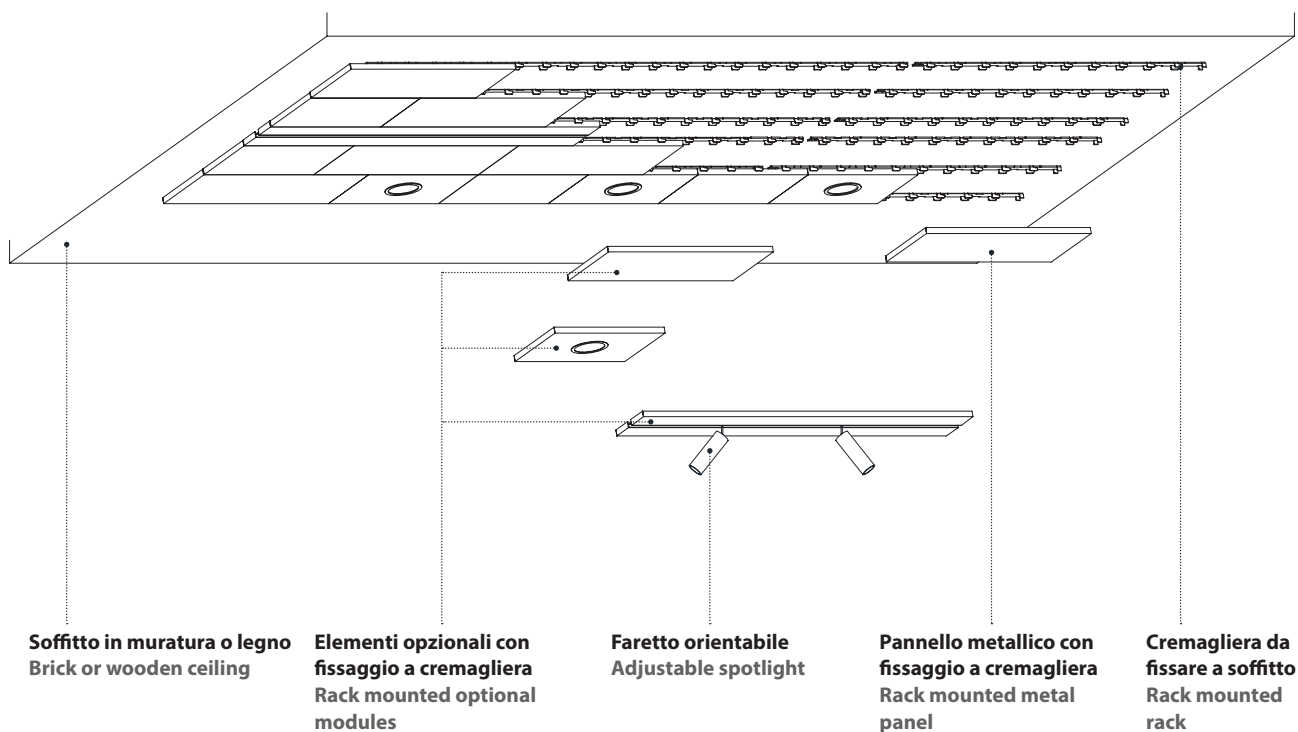

Design: Gino Carollo

Sistema di pannelli magnetici in alluminio verniciato che si fissano magneticamente sul telaio in ferro, per la realizzazione di controsoffitti in metallo. Cornice con senza led integrato. Modularità e finiture compatibili con il sistema Caddy, per creare soluzioni in continuità tra la parete verticale e il controsoffitto. Possibilità di inserire canalette elettrificate o faretti incassati.

Painted aluminium magnetic panel system for metal ceilings. The panels are provided with magnets to be hung to the metal frame. Side end with or without led. Modularity and finishes matching the Caddy system, to create integrated solutions. Possibility of adding lighting tracks or recessed spot lights.
